

IN LEGISLATURE OF UTAH

TO CONSTRUCT ROAD
TO NATURAL BRIDGESMeasure Which Appropriates
\$1000 for a Highway in
San Juan County.

In order that not only the people of Utah, but the whole world may see the natural bridges of Utah, which are now almost inaccessible, due to the fact that there is no thoroughfare leading into that region, Mr. Nielson has introduced a bill in the house which provides that the sum of \$1000 is hereby appropriated out of any money in the state treasury not otherwise appropriated for the purpose of constructing a wagon road from Bluff to the natural bridges in San Juan county, the same to be expended for such purpose and under the direction of the county commissioners.

Mr. King also desires to improve the highways in Sevier and Piute counties, and therefore, asks in a bill which he has introduced that the sum of \$2000 shall be, and the same is hereby appropriated, out of any money in the state treasury not otherwise appropriated, for the purpose of improving certain public road or highway, extending from what is known as the Plateau bridge, at the head of Grass valley, in Sevier county, Utah, in a southeasterly direction, a distance of about ten miles, crossing the south boundary line of Sevier county, and extending through the northeast corner of Piute county, and ending at the top of what is known as the Parker mountain, at the dividing line between Piute and Wayne counties, said road being commonly traveled in going from Burville, in Sevier county, to La, in Wayne county.

Tooele county wants the state to help in the construction of highways in that region, and to help the county out Mr. Baker has introduced a bill providing that the sum of \$2000 is hereby appropriated out of any money in the state treasury not otherwise appropriated, for the purpose of improving existing roads and bridges in Tooele county, the same to be expended for such purposes by and under the direction of the county commissioners of Tooele county.

CHILD ATE AN
ENTIRE BOX
OF CUTICURA

Spread on Some Crackers—Not the
Slightest Injury Resulted from
Little Fellow's Escapade—In
Most Positive Way Ingredients of

CUTICURA PROVEN PURE
SWEET AND HARMLESS

A New York friend of Cuticura writes the following interesting letter:
"My three-year-old son and heir, after being put to bed on a trip across the Atlantic, investigated the state-room and located a box of Cuticura Ointment and a box of Cuticura Soap."

"When a search was made for the box, it was found empty and the kid admitted that he had eaten the contents of the entire box spread on the crackers. It cured him of a bad cold and I don't know what else."
No more conclusive evidence than the above could be offered that every ingredient of Cuticura Ointment is absolutely pure, sweet and harmless. If it may be safely eaten by a young child, none but the most beneficial results can be expected to attend its application to even the tenderest skin or youngest infant. This feeling is shared by mothers and nurses to such an extent that Cuticura Soap and Cuticura Ointment have for many years been unhesitatingly used throughout the civilized world for preserving, purifying and beautifying the skin, scalp, hair and hands of infants and children from the hour of birth. And greater still, if possible, is the confidence reposed in Cuticura Remedies for the treatment of torturing and disfiguring humors of the skin and scalp. The suffering which they have thus alleviated among the young and the comfort they have afforded worn-out and worried parents have led to their adoption in countless homes as priceless agents in the speedy, permanent, safe and economical treatment of infantile and birth humors, eczema, rashes, irritations, inflammations and chafings, and other itching scaly and pimply humors when all other remedies suitable for children fail.

Cuticura Remedies are sold throughout the world. Dealers: London, 27, Cannon Row; Paris, 25, Rue de la Paix; Australia, B. Towns & Co., Sydney; South Africa, L. J. van der Linde, Cape Town; East India, etc.; Russia, F. M. Moscovitz, Moscow; Japan, Maruya, etc.; etc. etc. etc. Potter Drug & Chem. Corp., New York, U.S.A.

CHANGING THE TENURE
CLERK AND SHERIFFMove to Lengthen Their Term of
Office From Two to Four
Years.

Weber county representatives are of the opinion that the clerks and sheriffs of the several counties in the state should hold office for four years instead of two. With that object in view, Mr. McCracken has introduced a bill providing that the elective county and precinct officers, except as otherwise provided for in this title, and except justices of the peace and constables in cities having a population of more than 15,000 and less than 40,000 inhabitants, shall be elected at a general election to be held in November, 1910, and every two years thereafter, except that the sheriff and county clerk shall be elected every four years thereafter, unless otherwise provided, and shall take office at 12 o'clock meridian, on the first Monday in January next following the date of their election.

County commissioners shall be elected as provided by law. All officers elected under the provisions of this title shall hold office until their successors are elected or appointed and qualified, provided that the terms of the sheriff and county clerk now in office shall continue until four years after their election in November, 1908, and until their successors shall be elected or appointed and qualified.

BADGER WOULD REGULATE
THE STATE BANKS ALSOAmendment to Banking Laws to
Control Capital Stock and
Branches.

Senator Badger introduced, by request, a bill in the senate, Friday, amending the state banking law with regard to the capital stock of banks, the amount paid up and the matter of branch banks, all with due relation to the size of the town in which the bank does business. The text of the bill follows: "Banking corporations shall in no case have to exceed \$1,000,000 capital stock, nor shall the subscribed capital stock of any bank be less than \$10,000, and in cities having from 3500 to 10,000 inhabitants, not less than \$25,000, and in cities having from 10,000 to 20,000 inhabitants, not less than \$50,000, and in cities of not less than 50,000 inhabitants, not less than \$100,000; nor shall the certificate of incorporation issue until it shall appear to the secretary of state by affidavit of at least three of the incorporators that the proposed corporation has the requisite amount of subscribed capital stock, and that at least 25 per cent of the capital stock of the corporation has been paid in cash; nor shall the secretary of state issue his certificate of amendment to any banking corporation until it shall be made to appear to him by affidavit that 25 per cent of the increased capital has actually been paid in cash; provided, however, that no such provision shall, after the first day of October, 1909, maintain a branch bank or banks."

Appropriation of
\$3000.

Representative White Friday introduced a bill in the house appropriating \$3000 to the state normal school to enable that institution to conduct a series of lectures and provide literature for the county teachers' institute, as at present called for by law. The bill reads:

Section 1. "The state normal school is hereby directed and required to provide lectures and other instructors for the county teachers' institute to be held throughout the state in accordance with chapter 121 of the Session Laws of 1907, wherever requested so to do by the governing board for the holding of county teachers' institutes."

Sec. 2. "The state normal school shall publish and mail to the teachers in the public schools of the state a series of educational bulletins each year, expressly setting forth therein approved methods of teaching with specific plans and suggestions upon the various subjects taught in the common schools, and also such other bulletins for the instruction of parents, trustees or patrons of the schools as the principal of the state normal school and the state board of education shall deem expedient and necessary."

Sec. 3. "For the purpose of providing such instructors for county institutes and of publishing and mailing the educational bulletins there is hereby appropriated to the state normal school out of the revenues of the state not otherwise appropriated the sum of \$3000 biennially, or as much thereof as necessary."

TO CONSIDER THE DES
MOINES BILL IN COMMITTEE

There will be a joint meeting of the senate and house committees on municipal corporations in the senate chamber on Wednesday next at 10 o'clock in the morning for the purpose of considering the Des Moines bill, which provides a new form of government for Salt Lake City. Argument will be heard at the time for and against the measure.

Suspending Payment of Taxes.
Representative Dyring would give the board of commissioners of the several counties in the state additional power to suspend the payment of taxes of indigent persons up to the amount of \$10, and to accomplish this he has introduced a bill which amends the compiled laws to this effect:

Want Experiment Station.
That an experiment station be wanted in the Utah basin was set forth in a petition which was presented by Representative Cannon on Friday morning from citizens in that region of the state. The place where it is proposed to establish the station is at Roosevelt.
